Abstract not available for EP1678106

Abstract of corresponding document: US2005090698

Dehydrohalogenation processes for the preparation of fluoropropenes from corresponding halopropanes, in which the fluoropropenes have the formula  $\text{CF}_3\text{-CX}_\text{N}\text{-H-CP}_\text{Y}$ , wherein X and Y are independently hydrogen or a halogen selected from fluorine, chlorine, bromine and iodine; and N and P are independently integers equal to 0, 1 or 2, provided that  $(\text{N}+\text{P})=2$ .
